

BLAST KILLS WOMAN: FOUL PLAY CHARGED

Clint Small Is Gaining Favor

**CANDIDATE IS
ACCLAIMED BY
3,000 AT MEET**

INTRODUCED BY HARDIN

WIRES POUR IN FROM ALL
PARTS OF STATE OFFER-
ING SUPPORT

Special To The Globe
STEPHENVILLE, Texas, June 27.—A crowd of at least three thousand persons stood before the open air platform here last night and heard Senator Clint C. Small discuss his candidacy for governor of Texas. Added to this vast audience was an untold number of listeners who tuned in on the radio broadcast which carried the candidate's address over the air from the court house rostrum here. It was the largest meeting Small has spoken to since his Amarillo address in which he opened his campaign for governor.

Small was introduced by Senator Carl Hagan of Stephenville, his colleague in the Senate. Judge Sam M. Russell presided.

Preceding the address the Dublin band offered a program. This band, with a caravan of automobiles filled with supporters of the candidate, met at Dublin, 14 miles away, and escorted him here last night.

A flood of telegrams from every section of the state reached here during the meeting, all offering encouragement and voting solid support to Senator Small.

Hardin for Small.
During the meeting Senator Hardin, a veteran member of the State Sen-

Arthur Brisbane is one of the most widely-known writers of America. His column is published in The Globe because of the interesting comments on the topics of the day. The opinions expressed are those of Mr. Brisbane and should not be interpreted as reflecting the editorial view of The Globe—Editor's Note

Rome sends disquieting news concerning the health of Pope Pius. When he recently appeared in public, at a canonization in St. Peter's, before 50,000 worshippers, he seemed in excellent health, his voice resounding through the great cathedral.

Not without on the day of the ceremony, accented by his heavy vestments, is believed to have brought on an internal attack from which he is now suffering.

Millions all over the world hope that the attack may pass speedily and that Pope Pius, now only 73 years old, may live beyond the age of his predecessor, Leo.

He will be remembered as "the Pope of the Conciliation," because of the record brought about between the Vatican and the government of Italy during his reign.

An elephant takes a long time making up his mind, especially when crossing a bridge. You may see the biggest, ugliest elephant, dragging a British cannon, with one foot on a bridge, waiting before deciding that the bridge will hold. Then he goes over.

The Republican elephant in New Jersey is in the same thoughtful mood.

But Dwight W. Morrow has shown him that it is possible to gallop over a wet bridge to victory on the other side. And he will force the Republican elephant to come in and he will

"Zero Hour" for Sweeping Liquor Drive, July 1

FIRE CHIEF IN 'FOURTH' PLEA

With the Fourth of July only a few days away, Fire Chief Cuernier today issued an appeal for a safe and sane mode of Independence Day celebration, asking parents to safeguard their children from injury and to save life and property from the ravages of fire which the use of fireworks and firecrackers entails each year.

"I don't want to be cast in the role of a kill-joy, because I enjoy the Fourth of July and Christmas as much as anyone, but they are the two most dangerous days of the year. The fire hazard on both of these days is increased almost 100 per cent."

"By cautioning our children and ourselves against the dangers to which human life and property are exposed on the Fourth and by doing all we can to remove hazards we are upholding the idea of 'safe and sane.'"

"Clean your premises of inflammable matter and rubbish of all kinds and keep a garden hose ready for instant use. Learn where the nearest firebox is located and in case of fire promptly turn in an alarm."

"Every parent, teacher and business man and woman in Amarillo should cooperate in doing his or her part to prevent accidents as well as remove the causes of loss of life and damage to property due to fire."

11 KILLED IN WRECK

(By United Press)
WINNIPEG, Man., June 27.—Eleven persons were killed when three Canadian National trains were derailed near Capreol, Ont., during the night according to information received here today.

Two passenger trains and a freight train were derailed by washouts caused by floods in the country near Capreol, the officials said. The freight train was derailed 10 miles east of Capreol and the two passenger trains were killed.

Four children on an abandoned train en route from Winnipeg to Toronto were drowned when a passenger coach plunged into the flood waters of the Vermilion river.

The westbound passenger train was derailed, but none was injured.

MANIAC SHOTS TWO

(By United Press)
MONTREAL, Que., June 27.—A gardener at fashionable Metis Beach, Canadian summer resort, went insane, killed one man, and injured seriously a woman, according to Montreal officials today.

After attacking the two, the gardener went into a barn and went to sleep. He was found there by police.

A contractor named Burke was killed and Mrs. R. J. Dawes of Montreal was injured seriously.

NEW PARLEY ON PAVING RAPPED

If another hearing is demanded by the contractor on Amarillo's tie-up with the Randall county paving on South Thirty-Sixth Street, it will be more than 30 days before actual construction can be started on this important connecting link, in the opinion of W. N. Durham, city manager, who says he does not think another hearing is necessary, pointing to the fact that one hearing was held almost a year ago.

"I don't think another hearing is necessary, but one will be held if it is demanded," said the city manager, who this morning forwarded a letter to the state highway commission at Austin, urging immediate issuance of a working order, now awaited by Willmeyer & Mullon, Amarillo contractors who nearly a year ago secured the contract on a bid of \$47,531.33.

At the time of the other hearing there was only one protest and since the state highway commission gave the project considerable study before announcing allotment of state aid equal to half of the paving cost it is not likely that another hearing will be necessary," Durham said.

Just how long it will be before Willmeyer & Mullon receives a working order from the state highway commission is not known.

"This is the first time the state highway commission has granted aid on a project of this kind and I have no idea how long it will be before the official order arrives," the city manager said.

Jesse Mallen of Willmeyer & Mullon said last night material would not be moved on location until the order is received. It will require at least two or three weeks for this work and if a hearing is demanded it will be six or seven weeks before actual construction starts.

The contractors plan to start work from the state end of the pavement, it was explained by Mullon.

Dynamite Blast Now Blamed in 30 Deaths

(By United Press)
BROCKVILLE, Ont., June 27.—Explosion by a belt of lightning of several charges of dynamite placed in the rocky bed of the St. Lawrence River was blamed today for the death of 30 men, killed when the blast tore the drill boat, J. B. King, to bits.

Only 12 members of the crew of 42 were rescued. These were picked up by the U. S. Coastguard Cutter 211. Several of them were severely injured and were brought to hospitals here.

The drill boat which was owned by J. P. Porter and Sons of St. Catharines, Ont., was engaged in blasting a channel through Brockville narrows off Cockburn Island on the eastern fringe of the Thousand Islands group yesterday when the explosion occurred.

Several holes had been drilled in the rock and filled with dynamite and the day crew was drilling additional holes to place more dynamite when an electrical storm broke over the river about 4:30 p. m. Many of the night shift were asleep below the decks.

NEW TROUBLE IS FEARED IN CHIHUAHUA

TROOPS CONTROL CAPITOL
SYMPATHIZERS PARADE AND
OTHERS ARE REPORTED
NEAR

(By The Associated Press)
MEXICO CITY, June 27.—Government officials today stated that Francisco Almada, governor of Chihuahua, had returned to Chihuahua City and that order prevails.

(By The Associated Press)
EL PASO, Texas, June 27.—Special dispatches to El Continental, Spanish language newspaper here, today said Francisco Almada, governor of Chihuahua, and Manuel Jesus Estrada, named provisional governor by the Prieto faction, were both attempting to handle governmental affairs from the government palace at Chihuahua City.

The dispatches added that Agrarian forces were taking a "suspicious attitude" some apparently favoring Almada and others Estrada. The menacing excitement prevailed in the streets, the messages said. Many trucks carrying sympathizers of both parties were said to be parading about the thoroughfares.

Federal troops were said to be in control of the situation, but fears of grave consequences were expressed. It was reported that Agrarian forces from Villa Guadalupe, village near Chihuahua City, were marching towards

Tom Mooney May Be Freed Within Month

(By United Press)
SAN FRANCISCO, June 27.—Probability that Tom Mooney and Warren K. Billings will walk to freedom within a month was established today by the United Press from sources close to Governor C. C. Young.

Mooney and Billings now are serving their thirteenth year in prison for allegedly perpetrating the Preparedness day bombing in San Francisco in July of 1916.

Six persons were killed outright in the explosion. Three died later. Forty were wounded.

The State Supreme Court is now sitting as a board of review in the Billings case.

CHICAGO PLANE IN AIR 15 DAYS

(By United Press)
CHICAGO, June 27.—Determined to "last at least two days longer," the Hunter brothers brought their endurance airplane City of Chicago well into its 15th day of continuous flight today in their attempt for a new record for sustained flight.

At 3:10 a. m. (C. D. T.) the droning plane passed its 372nd hour of continuous circling over Sky Harbor airport. If all goes well the City of Chicago will equal at 5:01 a. m. Sunday the present record of slightly more than 420 hours.

(By The Associated Press)
ZION CITY, Ill., June 27.—The reckoning of gum has become a point of law and order in Zion.

Someone reported to Governor Wilbur Glenn Voliva that three young women employees of Zion industries had been seen purchasing gum. The Misses Lillian, Dorothy and Mary Baker charged with the deed, confessed, they went further. They said they had actually been chewing gum.

Mr. Voliva discharged them, for in Zion industries chewing gum must be eschewed.

Mrs. A. D. Payne Is Explosion Victim; Son Badly Injured

Hurled to Death in Terrific Explosion While Driving in Car; Bomb Placed in Car Charge Authorities

Mrs. Exa Payne, wife of A. D. Payne, Amarillo, was blown to bits, and her 12-year-old son, A. D., Jr., was critically injured in a mystery explosion that wrecked the family car on Line Avenue on Louisiana Street shortly before noon.

The explosion occurred as Mrs. Payne and her son drove toward the downtown district from their home at 3711 Fountain. They had driven eight or 10 blocks when the blast occurred.

The body of the car was torn from the chassis and scattered for a radius of almost a block. The blast seemed to have come from beneath the driver's seat, and bits of Mrs. Payne's body were scattered for yards around. The boy was blown from the car, but only his left side—the one closest Mrs. Payne—was seriously hurt. His arm and leg were almost torn from his body, and left side of face and head was mangled.

Police, sheriff's department and the district attorney's office started an immediate investigation into the mysterious explosion. Pieces of a dry cell battery were found about the car, police detectives said, and there was evidence that a bomb might have been placed beneath the seat.

They were working on the theory that the blast was planted, but whether it was the work of an insane person, a prank player, or someone seeking revenge against Payne was still a matter of conjecture.

Payne is said to have told friends that the boy had been trying to get hold of some dynamite caps for the Fourth of July, but that he had warned him against it. He could offer no other explanation, it was said.

Police Are Mystified
M. M. Scott, chief of detectives, and Ed Holloway, head of the bureau of criminal identification, rushed to the scene of the explosion in answer to a call received at police headquarters.

The chief of detectives is reported to have found dry cells in the wreckage, a strong indication that an incendiary machine may have been the cause of the death-dealing explosion.

Police and experts admitted they were mystified as to the cause of the blast.

The wrecked car, a brand-new battered coupe, went careening eastward down the street after the blast, jumped a curb between Louisiana and Mississippi just west of the alley and crashed into a garage.

Fragments of the car were scattered for a great distance in all directions at the scene of the blast. What was left of the car was pulled away from the garage and surrounded by ropes to keep a curious crowd away.

News of the blast spread rapidly and police were forced to direct motor cars away from the scene.

C. A. Carpenter, an expert mechanic employed by the Hill Motor Company, was called by the police department to examine the wrecked motor car after a hurried examination had been made by members of the department.

"As I found the wrecked car there was no foreign wiring of any kind," Carpenter said. "About the only thing irregular with the wiring were two stripped ends off the gasoline gauge. The gasoline tank was intact and about half full of gas."

Carpenter also found the motor was intact.

"Someone may have taken some foreign wiring from the wreck before I arrived, but there was none when I began my investigation. I am sure of that," Carpenter said.

Mrs. W. D. O'Brien, 820 Mississippi and Mrs. W. R. Russell, 816 Mississippi, were at Mrs. Russell's home when the blast occurred.

"It was about 10:25 o'clock," Mrs. Russell said, "when Mrs. O'Brien and I rushed to the back porch and from there saw fragments of the motor car thrown high into the air. A bus hurled several feet, landing near a fence at a southeast corner of Line and Louisiana."

Mrs. O'Brien's account of the blast was practically the same as that given by Mrs. Russell.

EAGLE PASS, Tex., June 27.—Residents at the hospital here, could not recall what happened, but that he did not remember where they were when the explosion came.

Payne was killed in the office this day, sustaining injuries that caused his death 30 minutes later.

(By United Press)
BROWNWOOD, June 27.—Death in the electric chair was prescribed by a jury today for Joe Shield, 35, oil field worker, found guilty of the murder of his wife Opal May Shield, on May 16 last.

The jury retired last midnight, and brought in its verdict at 10 a. m. today.

Shield is also under indictment for the alleged murders of Mr. and Mrs. J. B. Shields, his wife's parents, who were shot to death in the triple-killing at Brooksmith near here.

Hoover Goes Over Head Of Congress

HEARD —ON THE— Street Corners

By H. M. P.

TIM MEDDLIN SAYS: "If you have to keep telling the folks you are a man of honor it's a sign you are slipping". Of course if you are a politician this don't apply to you for you have to keep telling the people you are honest and sum times they find out after the election that you was lyin'."

City Attorney W. T. Caven tells me that the city has the right to regulate the Gas company's charges and that the only question about the right of the company to require a \$10.00 deposit before connecting up to furnish a customer gas, is whether the charge is a reasonable one or not. I do not know whether the Gas company submitted its intention to double the amount of deposit to the city or not but I believe no raises of any kind should be made without the consent of the city. I was very glad to have the assurance of Mr. Caven that the city had absolute power to control rates and regulations of all public service companies.

Now is \$10.00 excessive? The Gas company claims that the way it makes out its bills that the consumer is on an average 60 days behind in payment for gas consumed, and that to make itself secure it should have enough of the customer's money in hand to cover two months' bills. This may be approximately true, although not quite. I received my gas bill yesterday and it says it covers from May 2 to June 3. I have until July 10 to pay it. If I exercise that option it is true that a part of that bill will be for gas used 60 days ago but also a part of that bill would be for gas consumed only 30 days ago. But even if it were true that the gas company did not collect for any gas before 60 days had passed, this would only show that the gas company found it more convenient or more economical to render bills in that manner, and no penalty should be put on the customer on that account.

For more than 20 years the gas company here under its different managements has considered \$5.00 a sufficient amount to require for a deposit. The electric company requires only \$5.00. Through the years it is possible the gas company may have lost small amounts because consumers had bills in excess of \$5.00. All other businesses take some risks and I don't see why a hardship should be placed on

(Continued on Page Three)

Many Summoned For Probe Of Oil Merger

New York, June 27. (UP).—The anti-trust division of the attorney general's office today applied for subpoenas for a long list of witnesses expected to testify at hearings in connection with the government's suit to restrain the merger of the Standard Oil Company of New York and the Vacuum Oil Company.

Gum Chewers Forced to Leave Colony at Zion

Zion City, Ill., June 27. (UP).—Word came to Wilbur Glenn Voliva, overseer of this religious colony who believes the world is flat, that three of his girl employees had been seen purchasing chewing gum.

Gum chewing along with cigarette smoking is against the "blue laws" of Zion City, so the three girls, Lillian, Dorothy and Mary Baker, were ordered before the board of executives.

Under questioning they admitted readily that they had purchased the gum from William Bickett, a store-keeper, and then added, brazenly it seemed to Voliva, that they also were chewing the gum.

The overseer discharged them from the institutions and industries plant and exiled them from the colony.

Bomb Placed In Car Kills Wife Of Amarillo Attorney, Boy Injured

Investigation Fails To Establish Motive; Body Blown To Bits

Amarillo, Texas, June 27. (UP).

A sweeping investigation into the death of Mrs. A. D. Payne, wife of a prominent Amarillo attorney, and probable fatal injury of her 14-year-old son when their automobile exploded here today was launched by city and county officials tonight.

Officials investigating the blast said they were convinced that a nitro-glycerine bomb had been placed under Payne's automobile, causing it to blow to pieces. No motive could be ascribed to the act, believed to be a plot to murder Payne himself.

Mrs. Payne and her son, A. D. Jr., had just left Payne and his 12-year-old daughter when the tragedy occurred. As Mrs. Payne was en route to the business section to shop the car was blasted into bits with an accompanying roar that shook the entire neighborhood. She was killed instantly, her body badly shattered. The boy's right arm and leg almost were torn from his body. Physicians tonight said he had little chance to recover.

"I know of no one in the world who would do this to me or my family," Payne, a civil attorney popular in social and professional circles, said.

States attorneys sensed no political enemy in the plot although Payne was a candidate for the district judgeship until he withdrew recently. They could not connect his candidacy with any political friction.

Payne said his son had been talking recently of getting dynamite for the Fourth of July celebration but police officers, who investigated the tragedy, said tonight the explosion was not caused by dynamite.

The wires used to fasten the infernal machine to the automobile were found near the scene of the explosion.

Police said the bomb probably had been placed under the driver's seat.

The boy's body was blown more than 30 feet from the car. Tex Thornton, oil well shooter and explosive expert who was called to aid in the investigation reported the blast had been caused either by a charge of nitroglycerin or TNT.

Divers Recover Twenty Bodies After Disaster

Brookville, Ont., June 27. (UP).—Divers brought here from Kingston, Ont., today began bringing bodies to the surface from the wreckage of the drill ship John B. King which was destroyed by lightning and dynamite explosions yesterday.

Twenty bodies were brought up almost immediately after the divers began operations. One had been recovered previously. It was believed 10 more were still to be recovered.

The barge was wrecked when lightning struck it, passing down the drills into dynamite charges which had been set in the river bottom.

Forty-two men, most of them foreign laborers, were aboard the work ship when its steel drills picked up a bolt of lightning late yesterday afternoon. Eleven were rescued by the crew of the United States Revenue Cutter C. G. 21.

Under questioning they admitted readily that they had purchased the gum from William Bickett, a store-keeper, and then added, brazenly it seemed to Voliva, that they also were chewing the gum.

The overseer discharged them from the institutions and industries plant and exiled them from the colony.

The Weather

East Texas—Mostly fair, not much change in temperature.

Two Governors Occupy Palace In Chihuahua

Almada, Backed By Federal Government, Returns To Capital

El Paso, Texas, June 27. (UP).—While two governors occupied the state palace in Chihuahua City, state of Chihuahua, Mexico, today, reports to the El Paso Post said word spread through the city that 300 armed agrarians were on the way from Villa Chautemuc, 60 kilometers distant, to reduce the number to one.

Francisco Almada, deposed by a coup d'etat Wednesday, returned from Juarez by airplane and reoccupied the governor's suite in the state palace.

Across the patio of the building, in the legislative chamber, Julius Jesus Estrada, named governor by an insurgent group of deputies, maintained his gubernatorial office.

Supporters of Almada said the agrarians were marching from Villa Chautemuc to Chihuahua City to aid in overthrowing the insurgent regime of Estrada.

Soldiers under command of Gen. Eulogio Ortiz, zone military commander, and Gen. Augustin Mora, special representative of President Ortiz Rubio, kept heavy guard over the palace.

All persons who entered the building except the two rival governors were disarmed. Almada and Estrada were allowed their pistols.

Mora conferred with President Rubio by telephone and a decisive announcement of the government's attitude on the rival claims of the two governors was expected shortly from Mexico City or from Mora in Chihuahua City.

The Mexican federal government will support Almada in his efforts to suppress insurrectionists, it was made known today.

The federal war department has sent instructions to Gen. Eulogio Ortiz, chief of military operations in Chihuahua, to protect the rights of Gov. Almada, and a commission of the interior department already is at Chihuahua City to inquire into the episode.

Rather Cool Friday; Mercury Fails To Go Over 100 Mark

It was rather cool in Marshall Friday, the maximum temperature being only 100. While no overcoats made an appearance, the drop was noted and commented upon by many persons who felt a relief from the excessive heat of the three previous days when the mercury shot above the century mark.

The lowest temperature Friday was 74.

There is a possible chance for relief today with indications of thunder showers over this section.

SET SURFACE CASING—Surface casing is being set and cemented in the Hussey No. 1 oil test three miles west of Jefferson. Drilling will be resumed within the next three days. Indications are according to predictions, officials of the Tarbar Oil Company state. They expect to open up a new gas field if oil is not located.

STILL CAPTURED—A complete still was captured with two barrels of mash in a raid 18 miles northeast of Marshall late Friday. No arrest was made.

Southern Cross Plans Non-Stop Hop To Coast

Four Fliers Will Be Received
By President Hoover
Monday

SIMPLE WELCOME AT NEW YORK REQUESTED

Four Insist That Usual Hero
Worship Be Dispensed With

New York, June 27. (UP).—The tentative program of Major Charles E. Kingsford-Smith and his companions of the Southern Cross as announced officially today by Edward Bernays, representing the sponsor, calls for a non-stop flight next week from Washington to San Francisco.

The crew of the Southern Cross will be received by President Hoover Monday, it was announced at the White House today.

The Southern Cross will fly to Washington from Roosevelt Field, arriving at Bolling Field at 11 a.m., E. S. T. The aviators will be received at the White House at 12:30 p. m.

The four came down to the city hall today to receive the official honors New York reserves for its distinguished guests.

On their own request, the ceremony was perhaps the simplest the city has given any of the celebrities which have received its homage—yet there were some 5,000 people crowded in the open spaces of City Hall Park to cheer the four fliers as they came to meet Mayor James J. Walker.

Instead of the spectacular ceremonies of landing at the battery and parading up Broadway, Kingsford-Smith, Evert Van Dyk, J. W. Stannage and Captain J. Patrick

(Continued on Page Six)

Charge Fraud In Paris Election

Paris, Texas, June 27. (UP).—Attorneys for T. J. Record, defeated candidate for mayor in the April city election, today filed suit in district court for a recount of the ballots cast in two boxes, claiming there had been 104 illegal votes cast. The petition alleged that Mayor J. Morgan Crook was unlawfully holding office and asked damages of \$100 per month since April 1 when Crook took office.

Disclose More Gang Dealings Of Al Lingle

Evidence Will Be Placed
Before Grand Jury For
Further Check

SLAIN REPORTER IN ROLE OF "COLLECTOR"

Report \$15,000 "Fee" Asked
For Opening of Moran

Chicago, June 27. (UP).—Evidence that the mysterious financial dealings of Alfred J. Lingle, murdered Chicago Tribune reporter, extended into public officialdom was under investigation today by the board of strategy delving into the case that so far has cost police commissioner and chief of detectives their jobs.

The evidence will be placed before the July grand jury, it was indicated, for further check.

Soon after a canceled check for \$500 found in Lingle's bank account had been traced to a loop police captain, evidence was found that the newspaper man had received loans for varying amounts from Msi. Carlos Amos, head of the city civil service, and Alderman Bert Cronson.

Reports that Lingle had received \$5,000 from Corporation Counsel Samuel Etelson, right hand man for Mayor William Hale Thompson, were met by a prompt denial from the city official. Cronson is a nephew of Etelson.

The Herald and Examiner, morning competitor of the Tribune, said the board of strategy had reports that Lingle had received loans of as much as \$20,000 from Sammy Hare, gambling resort owner.

The newspaper also connected the reporter with two other gam-

(Continued on Page Three)

Time Limit For Expense Accounts Expires July 1

Expense accounts of candidates for county and precinct offices must be filed before July 1, according to Mrs. M. P. McGee, chairman of the Citizens Party. All candidates must make their first expense report to the county clerk before July 1 to get their names on the ballot. A number have already filed expense accounts but several have made no report.

Hoover Victory On Pension Bill Believed Assured

Favorable Attitude In Senate Toward Bill Passed By House

LEGION COMMANDER GIVES ENDORSEMENT

Favorable Report Is Expected to Be Made by Committee

Washington, June 27. (UP).—Added administration support of the modified World War veterans pension measure and American Legion endorsement of the bill virtually assures tonight a Hoover victory in the congressional controversy over veteran legislation.

A favorable Senate attitude toward the Johnson-Swack pension measure, passed by the House yesterday developed today following a conference between President Hoover and Majority Floor Leader Watson and further endorsement of the House measure by Director Frank T. Hines of the veterans bureau in an executive finance committee hearing.

Following these developments the finance committee decided not to report the Walsh-Connelly bill, which raises the disability allowances of the Johnson bill from \$12 and \$40 to \$20 and \$60 a month.

Instead the committee heard in executive session John Thomas Taylor, legislative agent for the American Legion, who read to the committee a qualified endorsement of the Johnson bill from Legion Commander O. L. Bodenhamer. The Legion commander's telegram listed two objections to the bill, "our request for an extension of time in which to bring suit on insurance claims is not met nor is the comptroller taken out of the bureau as we requested," he stated, urging the committee to modify the measure to include these requests.

The committee is expected to ask action tomorrow on the Johnson bill and from all indications it was believed the bill, with slight modification will receive a favorable committee report. The Senate plans to bring up the bill for a vote Monday or Tuesday.

They pulled the negro from the rumble seat.

Word and his men fought their way with their fists to their prisoner, recovered him and put him back in the car. Chief Word scattered the crowd with several shots fired into the air as the auto pulled out of the fire station.

He headed down the road for Beaumont at top speed.

"The mob began gathering early this morning.

Peace officers from over the county gathered to defend the jail. City officers, deputy sheriffs and constables barricaded themselves

Report La Paz In Charge Of Revolutionists

Antofagasta, Chile, June 27. (UP).—Unconfirmed reports late tonight said the last remnants of the besieged old regime forces had surrendered and La Paz, Bolivian capital, was in the hands of the revolutionists.

The reports which trickled across the Bolivian border throughout an anxious day indicated that the revolution was proceeding rapidly and that street fighting continued.

Many were reported dead, and wounded in the clashes at La Paz but casualties could not be estimated accurately. Direct telegraphic communications remained severed.

The crisis apparently came when General Blanco Galindo, revolutionary commander, arrived after a hurried march from western Bolivia and sent an ultimatum to the government forces barricaded within the government palace. He told the remnants of the old regime defense that unless they surrendered within two hours he would bombard the palace. Late reports indicate the defenders of the palace surrendered and that the revolution had succeeded with astonishing rapidity.

APPROVE MONEY BILL—Washington, June 27. (UP).—The second deficiency appropriation bill, carrying \$10,660,000 for beginning work on Boulder Dam, was passed by the Senate today without a record vote.

Will Secure Private Funds To Carry Out Commission's Work

Negro Saved From Mob By Police Ruse

Confessed Attacker Is Identified by One of His Victims

Port Arthur, Texas, June 27. (UP).—Police today saved Rainey Williams, 38, negro who confessed to attacks on eight white women within the past 30 days, from an angry mob gathered around the city jail here intent on lynching the negro.

By a ruse the negro was placed in Fire Chief L. C. Enright's auto and taken to Beaumont by Police Chief M. B. Word and other officers.

Williams had been identified as the negro who attacked a young white woman and her companion, as they were sitting in a parked automobile last night.

As the mob milled around the building that houses the City Hall, city jail and fire department, Chief Word slipped his prisoner down the opposite side of the structure into the fire department.

He put the negro into the rumble seat of the fire chief's auto and prepared to leave when some members of the mob learned of the ruse and stormed the fire department.

They pulled the negro from the rumble seat.

Word and his men fought their way with their fists to their prisoner, recovered him and put him back in the car. Chief Word scattered the crowd with several shots fired into the air as the auto pulled out of the fire station.

He headed down the road for Beaumont at top speed.

State Will Be Content With Life Verdict

Los Angeles, June 27. (UP).—The state will be content if Otto Sanhuber is sent to prison for life, it was announced today as his trial for the murder of Fred Oesterrich, wealthy Milwaukee manufacturer, continued.

A few minutes after this announcement, Sanhuber, who admitted he lived in garrets of various Oesterrich homes to be near Mrs. Walburga Oesterrich, resumed the witness stand for continued cross questioning. The state immediately attempted to get his admission he crept from his abode in the Oesterrich attic on August 22, 1922, and shot Oesterrich to death, as charged by the state.

Washington, June 27. (UP).—President Hoover after another clash with the Senate today took his case over the head of Congress.

In less than two hours after the Senate voted to restrict his Wickensham crime commission's activities to prohibition, Mr. Hoover announced the present wide program would be carried out with private funds.

The action followed closely on Mr. Hoover's success in over-riding congressional action on the world war veterans bill. That success was reached, however, within congress. Today's action amounted to single handed defiance of at least 35 senators who put across the amendment which stripped the Wickensham commission.

The senate action will leave the commission with \$120,000 to investigate prohibition. The restriction as to what to inquire into covered only the use of the money appropriated, so Mr. Hoover's action in seeking funds for other activities is believed entirely legal.

That Mr. Hoover himself would put up some of the money as Chairman Wickensham some time was seen, although Mr. Hoover said, "I have no doubt there are private citizens sufficiently anxious for the nation to know the whole truth as to what constructive remedies may be suggested by so imminent a body of men and women as this commission, that I shall be able to secure from private sources the \$100,000 necessary to carry this work forward to completion."

"I can not abandon the question for one moment or allow the work of the commission to cease, I have asked the commission to proceed with its full program of work and it has consented to do so," he said.

The commission was instructed to investigate only prohibition enforcement under the Glass amendment.

"I can not abandon the question for one moment or allow the work of the commission to cease, I have asked the commission to proceed with its full program of work and it has consented to do so," he said.

BEAUMONT MOB DEMANDS NEGRO

CHICAGO ENDURANCE FLIERS APPROACHING NEW RECORD

KANSAS FARMERS HOLD WHEAT-PRICES NOW BELOW COST

"Thar's gold in these here prairies."

This is your city. Are you doing the minimum service required of everyone worthy of the title of good citizenship? For that matter, are you a member of the Chamber of Commerce?

The list of Chamber of Commerce members, in classified form, appears this month in "Pampa", the organ of the B. C. D. It is the list, but certain classifications are not very well represented.

B. C. D. organ presents some interesting figures on chain letters and how much they cost. If every person getting a chain letter should send nine others, and this process were repeated thirteen times, how many letters do you suppose would be written? The mathematicians say the number would be 317,733,228,541. And the cost would be \$6,354,864,570.82, at 2 cents per letter. The work and money involved would pave all the roads in the country.

Oklahoma City's experience shows that many misunderstandings exist with regard to drilling for oil within corporate limits of a city. Pampa has an ordinance prohibiting such drilling and it is commonly supposed that vacant property—and other kinds, for that matter—have no possibility of oil development. This ordinance, however, is questionably legal.

In all probability, should the ordinance be tested, it would be as useless as Oklahoma City's. The Oklahoma folks who fear that derricks will march through their pretty city and leave but a greasy memory of its fine lawns and parks are hiring the best legal talent available in an attempt to draft an ordinance that will stand. Oklahoma City has property valued at at least two hundred millions. Oil wells drilled at customary intervals within her corporate limits would produce a net revenue of but a fractional part of that value. Frankly, Oklahoma Citizens who have civic pride do not wish derricks invading the better parts of the city.

But unless cities can show that the value of an oil well on a piece of property would not net more income than the value of the property, they have little chance to prohibit drilling. As it stands, property owners within a city have as good an opportunity, legally, as those without to drill an oil well.

TWINKLES

Pampa Lions are honest, but oh, so playful. In an election last week, the ballots totaled 57 and there were 44 Lions present. President Curry held a new election, and overruled a demand for an investigation.

El Paso finds Juarez a very good argument in inviting conventions. Juarez cafes, including "The Home of Special Fizz," are inviting West Texas editors to meet in El Paso in 1931.

Wisconsin men are reported to be impressed with South Texas; and to believe thoroughly the tales told by realtors of their home state. And the next problem will be to get West and South Texans acquainted with each other.

There are few shrubs, but at least don't have to campaign to have them cut close so the ladies will not tear runs in their hose.

The "other" candidates seem to be having a hard time finding very interesting things to say against our small. The professional politicians can sling mud with abandon and be pretty sure of hitting the mark most of the time.

LEGGE URGES SLOW SALE IN GRAIN MARTS

Most of Crop to Be Harvested in Week

CLYDE REED IS URGING ACTION

Wants Form Board to Buy 25 Million Bushels

TOPEKA, Kans., June 28. (P)—Kansas wheat growers, harvesting what is estimated to be the largest acreage in the state's history, but 40,000,000 bushels short of the record production, apparently are storing as much grain as possible, in preference to selling at the current low prices.

Chairman Legge, of the Federal Farm Board, repeatedly has urged that farmers retard the movement of grain to market. Most authorities believe the price slump has resulted in growers heeding this advice.

Today it was indicated that approximately half of the Southwest

Oil Production in Gray County Has Large Increase

The optimistic effect of the Humble Oil and Refining company's decision to rescind its intention of withdrawing as a crude purchaser from Gray county was reflected this week in the county's daily production, which increased 2,346 barrels over last week. Daily production of Gray county was 75,040 barrels and of the Panhandle area, 107,989 barrels.

One large producer, Texas company's No. 9 Faulkner, section 29, block B-2, was completed at the total depth of 2,783 feet for an initial production of 2,516 barrels of oil and four million feet of gas. The same company's No. 4 Wright, section 13, block 3, was drilled to a depth of 2,844 feet, and had an initial production of 873 barrels of oil and 15 million feet of gas. The same company's No. 2 Archer, section 174, block 3, was completed for 144 barrels of oil from a total depth of 3,270 feet.

The initial production of Wilcox Oil and Gas company's No. 15 Combs-Worley which came in last week in section 35, block 3, was estimated this week at 5,950 feet.

Empire Gas and Fuel company's No. 1 Sallor, 330 feet from the south and west lines of the northwest quarter of section of section 138 block 3, cellar. Magnolia Petroleum company's No. 1 Sallor, 990 feet from the south line and 330 feet from the west line of the east half of the northeast quarter of section 138, block 3, location. Midwest Exploration company's No. 2-A Bowers, 330 feet from the east line and 990 feet from the north line of the west half of the southwest quarter of section 63, block B-3, location. Smith and McDonald's No. 1 Chapman, 990 feet from the north and east lines of the southwest quarter of section 52, block 25, rig up.

Daily production of the various counties compared with the previous week follows: Carson—213 wells producing 8,042 barrels, a decrease of 1,041 barrels. Gray—508 wells, producing 75,040 barrels, a gain of 2,346 barrels. Hutchinson—990 wells, producing 23,195 barrels, a loss of 696 barrels. Moore—19 wells, producing 351 barrels, an increase of 81 barrels. Potter county—1 well, no production.

Wheeler—39 wells, producing 761 barrels, an increase of 229 barrels. Total production 107,989 barrels, an increase of 819 barrels.

Candidate

Henry L. Jordan announced some time ago for the office of justice of the peace, place 2, in Precinct 2. He solicits the votes of those who participate in the Democratic primary of July 28.

MILK GRADES IN CITY ANNOUNCED BY DR. WORRELL

Grades of all milk and milk supplies distributed in Pampa have been determined by the local health department in accordance with the standard grade specifications of the U. S. Public Health Service standard inspection code and ordinances of the city, according to Dr. T. J. Worrell, assistant health officer.

Milk consumers of Pampa are urged by the city health department to purchase milk and milk supplies on the basis of grade. Each bottle of milk sold within the city limits is marked with a grade on the cap, and the different grades offered for the sale by restaurants, soda fountains, grocery stores, and other firms are conspicuously posted in order that the consumer may be advised as to the grade of milk purchased.

As a matter of information, grade "A" Pasteurized milk is the safest pasteurized grade and Certified and grade "A" raw milk are the safest raw grades, Dr. Worrell points out.

The distributors and grades of milk products sold within the city limits are: Gray County Creamery, permit No. 12, grade "A" Pasteurized milk; Taylor Farm Dairy, permit No. 1, grade "A" raw milk and grade "A" Pasteurized milk.

Talley Addition Election Will Be Held on July 8

Citizens of the Talley addition are scheduled to vote for or against incorporation on July 8, according to an election order which was signed by Judge Ivy E. Duncan Friday.

Notice of the election will be advertised and posted Monday, giving location of voting place and election officials.

Petition for the election was filed during the week by J. G. Christy of the Pampa Development company, developers of the Talley addition. It was signed by 53 citizens of the addition. According to statutes pertaining to incorporation, a township must have a population of 600 before it can be incorporated into a city. The 1930 census gave that section of Greater Pampa a population of approximately 800.

WILL EQUAL OLD MARK AT 5:01 SUNDAY

Hunter Brothers in Fine Family Effort

BREAK NEARLY CAUSES HALT

Men Have Been Up 17 Days—Very Tired

CHICAGO, June 28. (P)—The weary pilots of the monoplane, "City of Chicago," John and Kenneth Hunter, were on the home stretch of an air race against time and endurance tonight, at 4:40 p.m. (Chicago daylight time) they had rounded out their seventeenth day aloft. At 5:01 a.m., Sunday the "City of Chicago" if still aloft, will equal the 420-hour refueling record of the "St. Louis Robin," and an hour later establish a new record of human and mechanical endurance.

Dogtired by the strain of a 17-day vigil, deflated by the even roar of their motor, the Hunter brothers breathed the cool night air, propped drooping eyelids open and pluckily took their turns at the stick.

"All's well. We shall beat the record," they scribbled with trembling pencil, in a note tossed to the ground crew below.

A few hours before it had not been so well. An oil plug, weakened by high pressure, burst and sprayed the cabin with hot oil. Their clothing soaked, the brothers tossed it overboard and toiled in underwear five hours until the break was mended. Then the "Big Ben" flew overhead, made contact and dropped a fuel, fresh clothing, and black coffee to fortify the sleepy pilots.

Close to harbor the ship hovered tonight, droning around a narrow orbit less some mishap find it too far from port and mother ship. Down beneath the revolving eye of sky harbor's beacon the rest of the Hunter quintet—brothers Walter and Albert and sister Irene—watched to carry up equipment, gas and oil, and refreshments for the family champions in the air.

ST. LOUIS, June 28. (P)—Should the Hunter brothers of Chicago surpass the world's endurance flight record now held at 420 hours by Dale Jackson and Forest O'Brien, the pair will take the air again July 13 in an attempt to better any mark the "City of Chicago" may set.

Houston Clings to Lead in Building

DALLAS, June 28. (P)—Houston kept its lead of the state in building permits this week with a total of \$400,044, bringing its yearly total to \$9,044,236—still the state's largest. Dallas was second with \$326,157 for the week and a yearly total of \$5,539,585.

Austin's total of \$41,876 for the week placed it \$392,069 ahead of the total for the first six months last year, its 1930 total so far amounting to \$2,071,368.

Cities reporting were as follows:

HOUSTON \$400,044 \$9,044,236

DALLAS 326,157 5,539,585

PORT ARTHUR 179,955 1,637,362

Proposed Pioneer Memorial Building at Canyon

The above illustration is the architect's drawing of the Pioneer Memorial building which the Panhandle Plains Historical society proposes to erect next year at Canyon. Prof. L. F. Sheffy, who is devoting much time to solicitation of funds for the project, was in Pampa Friday in its behalf in consultation with T. D. Hobart, president of the society, and others.

Clue in Bomb Case

Threat Recalled By Payne But Meaning Doubtful

AMARILLO, June 28. (P)—The bomb which yesterday killed Mrs. A. D. Payne and blew to bits the automobile she was driving, was intended for her husband, relatives of Mrs. Payne declared here today.

"Our daughter could not have had an enemy. There was never anything in her life that would bring such a tragic death upon her," said Mr. and Mrs. J. C. Johnson of Austin, parents of Mrs. Payne. They came here from Lovington, N. Mex.

Police said today they believed they had no clue to the mystery of the explosion but did not expect to make any arrests for several days.

They recalled that Payne notified police several months ago that a threat had been made against his life. The difficulty had been settled, however, and Payne did not suspect anyone connected with that case. He was still at a loss to explain the motive for the blast.

Detectives working on the case were assembling fragments of what they believed had been a TNT bomb, planted beneath the driver's seat in Payne's automobile.

A. D. Payne, J. 14, who was in the car with his mother at the time of the explosion, and whose leg and arm were almost blown from his body, was reported today as improving and had a chance to recover. He had not been told of his mother's death, attendants fearing the shock would be too much for him.

Talking to an uncle today, the boy said the car was filled with smoke, just before the explosion.

Thinking the smoke had escaped from the exhaust of the car, he said his mother speeded up the machine. Then the blast came, and the boy did not recover consciousness until he was in the hospital.

The only tangible evidence found consisted of fragments of what might have been a container for an explosive, officers said. A sack wrapped about part of the wrecked automobile machinery, they decided, was a freak of the explosion and had no special significance.

AMARILLOANS INJURED

In a collision between a truck driven by Arlean Harrington and an automobile near White Deer Friday evening at 8 o'clock, Dr. and Mrs. H. A. Hill of Amarillo were seriously injured and Mrs. W. L. Siebold suffered several fractured ribs. Mr. Siebold her husband was slightly injured. The driver of the truck was uninjured. The accident occurred at a railroad crossing. When the G. C. Malone ambulance arrived, the automobile was on its side in a corner of an adjoining wheat field. The injured persons were taken to an Amarillo hospital in the ambulance.

More than \$3,240,000 worth of books and pamphlets were exported by the United States during the first three months this year.

PAMPA RESIDENTS SHOW MUCH INTEREST IN PIONEER BUILDING TO BE ERECTED SOON IN CANYON

Pampa citizens—members of the Panhandle Plains Historical society and non-members, alike—are vitally interested in the Pioneer Memorial building which the Historical society proposes to build in tribute to the early settlers of this section, L. F. Sheffy, field secretary of the society, learned upon his visit here last week in the interest of the building campaign.

Here, as elsewhere, Mr. Sheffy said, people are awakening to a realization of the epic and picturesque history of this section and to a sentiment to have it preserved to future generations in a more tangible, colorful, and living form than mere volumes and cold print can preserve it. There is a growing sentiment, too, he said to pay tribute to the heroism of the frontier men and women, living and

Moving of Houses to Pampa From Other Towns Continues Briskly

For three years residents of towns adjacent to Pampa have been absorbing that most of their vacant houses were being moved to this city. Mushroom oil booms in certain towns left scores of vacant houses.

Moving of them to Pampa has been one of the most expedient ways of relieving the housing situation here. Last year it was seldom that one travelled on Highway No. 33 to Amarillo that he did not meet a house being moved toward Pampa.

This exodus still continues, according to F. E. Townsend, city building inspector. Except that now many houses are being from Amarillo to Pampa. Last week the business of moving houses from Amarillo and other towns to Pampa was particularly active, Mr. Townsend said. "The contractors just can't build enough houses in Pampa, it seems," Mr. Townsend said. "Very few houses here stay vacant longer than a day, and apartment houses are rented before they are completed. One reason why so many houses are moved here more, quickly and cheaply than they can be built."

In addition to a half dozen moving permits, Mr. Townsend also issued building permits aggregating \$7,525, raising the total for the year to \$647,338.

Permits were issued to the following: To F. C. Graham to build a \$3,000 frame house in the White House addition; to the Union Oil and Gas company to build a tile stucco structure in the Eller addition at a cost of \$1,500; to E. J. Guterich to erect a tile stucco building in the original addition at a cost of \$1,000; to Mrs. Sadie M. Sweetman to build a frame residence in the Hill Crest addition at a cost of \$3,000.

The bell which sounded the alarm in the Chicago fire has been placed in a museum. For 55 years it announced the opening and closing of the exchange in Chicago Board of Trade.

FEELING RUNS HIGH BUT NO VIOLENCE YET

Officers' Guns Await First Sign of Attack

SHERIFF TALKS TO DELEGATION

Port Arthur Men in Dangerous Mood, Report

BEAUMONT, June 28. (P)—Five men from Port Arthur, where it had been feared another mob would be formed tonight to try to lynch Rainey Williams, negro, alleged attacker, came to the county jail here tonight and calmly requested that Sheriff W. W. Covington give up the negro to them. He refused.

Sheriff Covington said he "reasoned" with the men and they finally agreed he was right in insisting that the law take its course.

Whether their presence was in the nature of a "feeler" and whether they intended going back to Port Arthur to report, no one knew.

Guns Laid Out
Meanwhile, preparations went ahead for resisting any violence. Loaded rifles were laid along the concrete floor of the jail, which was declared to be practically fire proof. A sub-machine gun, common to another machine gun placed at the head of the stairs leading to the death cell where the negro was confined, was laid, freshly oiled, alongside the rifles. It almost would take dynamite, deputies declared, to dislodge Williams, as it would be necessary to cut through

(See NEGRO, Page 6)

J. A. Pearson Is Honored for Work in Vets' Behalf

J. A. Pearson, grand chef de gare of the Texas department of the Forty and Eight, who was signally honored at the recent state convention in Amarillo of the Veterans of Foreign Wars for his outstanding work on behalf of the ex-service men, received the plaudits of members of the Kerley-Crossman post of the American Legion and its guests at the luncheon Friday when he was introduced by Frank Thomas, who also introduced him to the V. F. W. convention in Amarillo last week.

Both Mr. Thomas and Mrs. Pearson gave interesting reports of the veterans' convention. Visitors at the luncheon included T. E. Lawlor, member of a New York City Legion post; Sherman White, McLean Legionnaire; George Briggs, secretary of the Pampa Chamber of Commerce and B. C. D. manager; and F. M. Foster.

Mr. Briggs outlined plans for the radio broadcasting club for Pampa, whose organization he said was almost completed. Broadcasts from here would be made by remote control through an Amarillo station, Mr. Briggs told his audience.

The regular meeting of the Legion post next Tuesday night was announced as one of the most important of the year. Officers urged that every member attend.

WILL SEAL BOXES

O. K. Gaylor, acting postmaster, announced yesterday that he had received orders from the postoffice department at Washington to seal up all boxes at the local postoffice on which rent had not been paid July 1. Mr. Gaylor said these instructions would be strictly enforced, and that persons who have lapsed in payment of rent should make prompt deposits.

TAYLOR COUNTY SCHOOL REPORT IS COMPLETED

Record of Superintendent Gives Many Facts About 38 Rural Districts

Know how many common school districts in Taylor county? How many teachers were employed last year? The aggregate salary expenditure? The total enrollment? Annual report of County Superintendent M. A. Williams, completed at his office Saturday, with assistance of Miss Cleora Wellborn, tells all those facts and more.

The report is made up from records of 37 rural schools for white children and one for negroes, that at Bradshaw, with a total enrollment of 2,266 students during the school terms recently closed. One hundred white teachers were employed, at an aggregate salary expenditure of \$86,478.30 for the year. Average annual salary per teacher was \$736.48 and average salary for 38 executive officers of the white schools was \$1,026.42. Twenty men and 18 women held executive offices as teachers.

17 Had Degrees
Seventeen teachers in the county system last year held degrees, 15 having bachelor of arts and two bachelor of science degrees.

Six of the schools had only one teacher, 16 had two teachers, four three teachers, seven, four teachers and three six teachers. The county has eight teacher's homes. Total value of the county's school property is given as \$208,762.67. Thirty-one schools have a \$1 tax rate, funds from which are used for paying bonds and maintenance. Five districts have a 75c tax rate.

Average length of the term for the 38 white schools was 146 days. Teachers' experience in number of years was also given, as follows: Fifteen teachers, one year; 19, two years; 12, three years; four six years; five, five years; and 46, six years or more.

Peddlers Due for Big Time at Frolic Here Last of Week

Colorful Badges and Same Kind of Program Ready for 300 Expected at Jubilee

West Texas commercial travelers who will be in Abilene to attend the "Peddlers' Frolic," July 3, 4 and 5, are due to share in the well known "big time" enjoyed by traveling men.

Abilene will be ready to entertain the visitors. The jubilee program is practically complete, and last week the Abilene chamber of commerce received 300 Frolic badges—colorful emblems, to put it mildly. They're large orange discs, lettered on the front like this: "Marked Down to—". On the reverse side are blanks for the peddler's name and address, with this appeal: "I paid \$2 for this ticket, so please don't keep me from a hot time."

In addition to the West Texas Fair association program of automobile and motorcycle racing, and a bathing beauty review on July 4th, the peddlers will have plenty of events for their own meeting. There will be five dances, golf matches and a big barbecue.

Leo Jesse, Cecil R. Fritch, Guy McCarthy, J. D. Poucher and Joe Smith make up the committee in charge of arrangements for the jubilee. Three hundred West Texas traveling men are expected here for the Frolic which opens in a big way on Thursday night, and doesn't close until Saturday night.

CUBS NOSE OUT INDIANS 6 TO 5

Waco Wins Fifth Night Game, Scoring in 9th to Break Tie

(By The Associated Press)
WACO, June 28.—Scoring one run in the ninth to break a five run tie, Waco won their fifth straight night game at Katy park tonight, defeating San Antonio 6 to 5. Carson started on the mound for San Antonio with Wendt in the box for Waco.

Score by innings: R H E
San Antonio: 100 110 020-5 13 1
Waco: 040 100 001-6 9 5
Carson, Smith, Lucas, Estell and Leveque; Wendt, Thurman and Wiltry.

BODY SENT HOME
(By The Associated Press)
VICTORIA, June 28.—The body of Frank W. Kutach, 63, carpenter, who drowned in Garcitas creek near Inez yesterday when he dived into shallow water and fractured his skull, today was sent to Hallettsville, his former home, for burial.

BOMB BELIEVED INTENDED FOR AMARILLO MAN

Woman Victim's Parents Say She Did Not Have An Enemy; Police Say Clue Is Held

(By The Associated Press)
AMARILLO, June 28.—The bomb which yesterday killed Mrs. A. D. Payne and blew to bits the automobile she was driving, was intended for her husband, relatives of Mrs. Payne declared here today.

"Our daughter could not have had an enemy. There was never anything in her life that would bring such a tragic death upon her," said Mr. and Mrs. J. C. Johnson of Austin, parents of Mrs. Payne. They came here from Lovington, N. Mex.

Clue Believed Held
Police said today they believed they had a clue to the mystery of the explosion but did not expect to make any arrests for several days. They recalled that Payne notified police several months ago that a threat had been made against his life. The difficulty had been settled, however, and Payne did not suspect anyone connected with that case. He was still at a loss to explain the motive for the blast.

Detectives working on the case were assembling fragments of what they believed had been a TNT bomb, planted beneath the driver's seat in Payne's automobile. A. D. Payne, Jr., 14, who was in the car with his mother at the time of the explosion, and whose left leg and arm were almost blown from his body, was reported today as improving and had a chance to recover. He had not been told of his mother's death, attendants fearing the shock would be too much for him.

Filled With Smoke
Talking to an uncle today, the boy said the car was filled with smoke, just before the explosion.

Thinking the smoke had escaped from the exhaust of the car, he said his mother speeded up the machine. Then the blast came, and the boy did not recover consciousness until he was in the hospital. The only tangible evidence found consisted of fragments of what might have been a container for an explosive, officers said. A sack wrapped about part of the wrecked automobile machinery, they decided, was a freak of the explosion and had no special significance.

Mrs. Perry Sayles, Mrs. Patty Hyde Reported Better

Although still critically ill, Mrs. Perry Sayles of Eastland was slightly improved last night, it was reported from the home of her parents, Mr. and Mrs. J. P. Young, Sayles boulevard and Forest drive, Mrs. Sayles was removed from the West Texas Baptist sanitarium to her parents' home several days ago.

Attendants at the West Texas Baptist sanitarium last night reported marked improvement in the condition of Mrs. Patty Hyde, 710 Orange, who underwent an operation Thursday.

Mrs. Parramore Sellers, 769 Mulberry, last night entered the hospital, where she will submit to a major operation this morning.

Condition of Oscar Sherrell, 541 Cypress, who underwent a major operation yesterday, was only fair late last night, it was reported at the Baptist sanitarium. Physicians said Miss Grace Self of Wingate was resting well after an operation yesterday.

Mrs. C. R. Simmons of Sweetwater and the Rev. J. A. Castleman of 1074 Locust street, Abilene, entered the sanitarium yesterday for medical treatment.

Mr. and Mrs. R. B. McFall, 1550 Palm street, announce the birth of a boy at the Baptist sanitarium at 3 o'clock Saturday morning. Mother and child were reported resting well last night.

Byrd Returns to N. Y. after Boston Trip; Lauds Crew

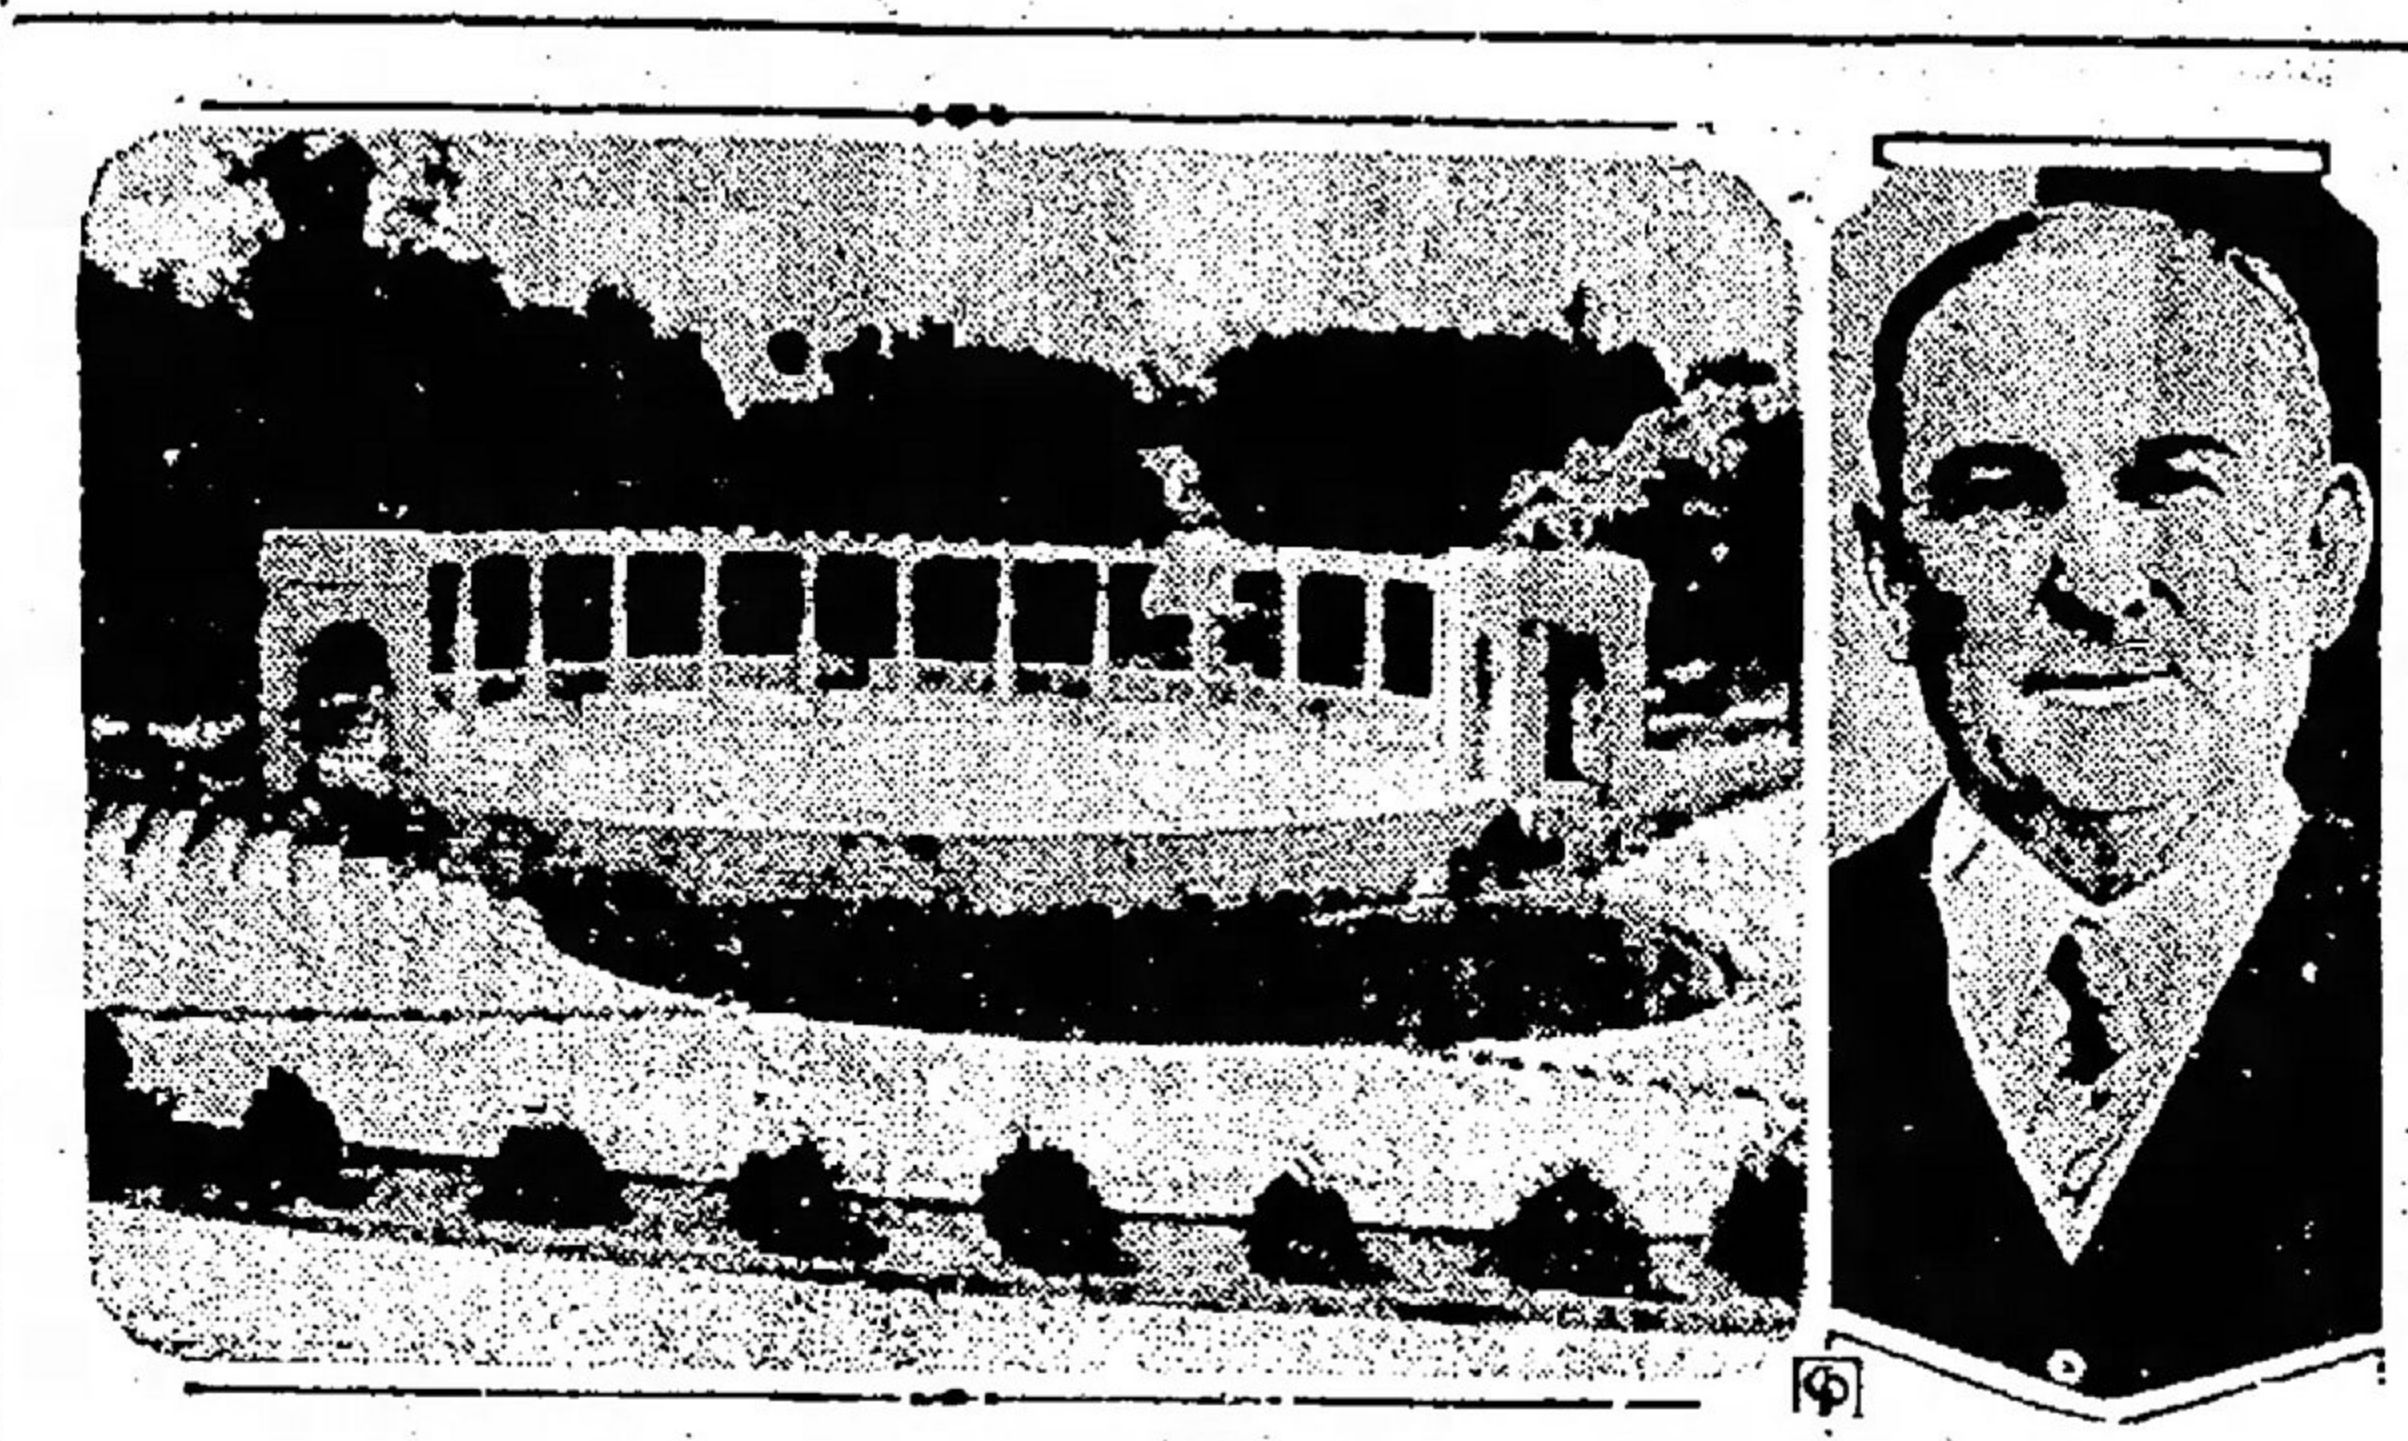

(By The Associated Press)
NEW YORK, June 28.—Rear-Admiral Richard E. Byrd returned today from Boston, where yesterday he was given an enthusiastic greeting, and was honor guest with others of his expedition at a luncheon.

The luncheon was given by Paramount-Public Corporation to the two cameramen who made the pictorial record of the antarctic adventure. The photographers, Willard Van Der Veer and Joseph T. Rucker, were seated with the admiral, but let their pictures do their talking for them.

The admiral gave warm praise to them pointing out that much of their work was done in temperatures of from 50 to 60 degrees below zero. He said the final record was a true picture of the expedition's work. He had feared the picture would be over-dramatized, but was glad to find that, if anything, it was under-dramatized. Tonight the admiral was invited to the dinner given by the New York press club for Russell Owen, reporter of the expedition.

Robinson Dedicates Arkansas Amphitheatre

Senator Joseph T. Robinson, of Arkansas, right, returned last night to the University of Arkansas, Fayetteville, the school he attended in 1890 and 1891, to dedicate this \$40,000 amphitheatre, the gift of Chi Omega, national Greek letter sorority. The dedication concluded the national convention of the sorority, at Hot Springs, which was founded at the Arkansas university in 1895.

Cowboy Ass'n— (Continued from Page 1)

union here, and became charter members of the association. And they had the time of their lives at this show. Heat and a sandstorm this afternoon failed to limit the crowd, and the reunion closed in as great a fashion as that with which it opened.

Rodeo contests participated in only by West Texas cowboys drew large crowds again today; tonight's rodeo exhibitions and the Comanche Indian show were as well attended, and the old-timers dance had all the pep of those on the two preceding nights.

There were 97 contestants—all of them West Texas cowpunchers—in the rodeo events which carried more than \$1,000 in prizes.

Beaumont Mob— (Continued from Page 1)

four steel doors to obtain entrance into his cell.

Automobiles were passing by the jail with increasing frequency and now and then someone driving by would shout out to the officers grouped about the sidewalk and in the building. Lights played on the front part of the jail. The police were attempting to keep the automobiles moving on, allowing no one to park except on business. Almost constant communication was kept with Port Arthur authorities, who were ready to report any movement of men in this direction.

Fire Hose Ready
Firemen were ready to stand by with their hose if necessary. The jail is only a few blocks from the police station.

Reports from Port Arthur saying "they are coming" were being received rapidly but the sheriff placed little or no confidence in them. Refinery officials from Port Arthur were here, the sheriff said, passing out word that any employee participating in violence would be discharged.

At 10:30 the police were not prohibiting parking except directly in front of the jail. A knot of about 50 men apparently just curious was standing in front of the building, and the sheriff asked those nearest to move back. They did so.

Young Verdict— (Continued from page 1)

they are 21 years old," Mrs. Young shouted through the courtroom. J. H. Hair, leading attorney for the defense, gave notice he would ask for a new trial. Hearing on the motion will be held next week, Judge Brucks said, probably Tuesday.

After recovering from the first shock of the jury's verdict, Mrs. Young said, "I hope he gets out of the penitentiary, and I will help him. If he does, the law will never get him. If I had known what I know now, they would never have got him here for trial."

Bold Robbery— (Continued from page 1)

man, Patrolman John N. Croft and L. T. Keffer and A. E. Lee and Ed Jones, Abilene city motorcycle police, came up.

Weldon turned the gun and gave it to Draper. Had the officer raised his hands above his head a rain of lead would have swept the coupe. Draper's fellow officers did not know until Weldon was under arrest that he had had the drop on the patrolman.

Deputy Sheriffs Whaley and Felix Rains and Detective Grover Hall went to Stamford for Weldon.

Victim's Glory
Rogers, bookkeeper and cashier for the Universal Manufacturing company here, related the story of the hold-up to a reporter.

"It was about 12:30 when I went to the post office to get my mail, and just as I was driving away a man jumped on the running board. I thought he was some one who knew me and wanted me to drive him around town."

"Where are you going?" I asked. "Drive on," the man commanded. I had not seen his gun, which he kept shielded beneath his arm. "At Pine he directed me to turn north, at North Fourth street to turn east to Walnut."

"You're being hijacked," I was informed. "Have you a gun?" I questioned. "He raised his arm and I saw the muzzle of the gun. I nodded. 'Yes, I'm being held up.' "We drove up Walnut, I think, to North Fifth and west on Fifth to the Alexander sanitarium. Here I was ordered to go to the highway. About three miles west of Abilene we drove south and east of the

highway about a mile. I turned the car around and got out at his request. He speeded the motor and left in a whirl of dust. Another car passed about this time, but they did not stop when I signaled.

"I ran to a farm home nearby and when I could not telephone to town, I was brought in. For got to ask this man his name, but just as soon as my car comes back I am going to drive out and thank him. "This fellow who held me up was a comparatively large man, dressed in yellow duck. I think he was wearing a dark pair of trousers beneath the overalls. He never did get 'hard' with me, nor did he abuse me. We talked nearly all the time.

"The laws are looking for me," he said once.

Came From Hobbs
Only information Weldon would give a reporter yesterday afternoon was that he came from Hobbs, N. M.

Weldon's boots were half-soled with a rubber composition recently, it was believed. The saw blades found in the boots were rusted, but Deputy Whaley said that rubber quickly caused the steel to deteriorate.

At first Weldon would not tell officers his name. The Dodge coupe, a 1930 model, was returned to Abilene last night by Lieutenant Koonsman.

Rogers lost three one dollar bills and his watch. The watch was recovered at Stamford. Several bills were blown away when Weldon was being searched, and not recovered.

Negro Slain— (Continued from Page 1)

ing to Sheriff Coley White of Travis county.

The Eggers resided in Williamson county and the negro was shot a few feet across the line in Travis county.

When word of the negro's death reached Round Rock, other posses were being formed to aid in the search.

Rangers from the headquarters in Austin were dispatched to the scene but arrived too late to participate in the search.

Village Is Quiet
The sleepy little village where the attack occurred was reported as quiet tonight with no threats or reprisals planned against other negro residents.

Eggar was a widely known farmer and dairyman of Williamson county and had resided in the district a number of years. The negro had been in his employ about 18 months.

Attendants of the Eggar couple at the Georgetown hospital reported tonight they were rest comfortably.

Preliminary accounts of the shooting of Eggar and his wife were meager. Constable Roy Holman, who organized the posse, said the early stages of the arguments occurred on the porch of the Eggar residence.

Following the argument the negro was said to have rushed to a small house in the rear of the Eggar residence and obtained a single barrel shotgun.

Gels His Shotgun
In the meantime, Eggar had obtained his repeating shotgun. Before he could use it, however, Robertson shot through the screen door, the charge lodging in Eggar's face. When Eggar dropped his weapon, the negro seized it and shot Mrs. Eggar twice, once while she was lying helpless on the floor, Holman said. Eggar staggered to the edge of the highway and collapsed.

Fearing an attempt to burn the body of the negro might be made, it was ordered removed to Georgetown where it was buried in poters field.

Sooner Cases— (Continued from page 1)

banks at Hastings, Manitou, and Hooker, Okla., and Kiowa, Kansas, but the brothers, members of a respected southwest Oklahoma family, were not suspected of evil-doing until the May gun fight following the attempted robbery of a filling station near Lawton.

Jeff Cunningham, the only brother to flee the scene of the battle was captured with his cousin, Clifford Morelan, at Gunnison, Colo., recently. Morelan has been sentenced to a 10-year prison term at Frederick, for confessed complicity in the Manitou robbery.

Houston Retains Lead in Permits

(By The Associated Press)
DALLAS, June 28.—Houston kept its lead of the state in building permits this week with a total of \$400,044, bringing its yearly total to \$5,964,236—still the state's larg-

MOB DISPERSES IN N. CAROLINA

Troops Sent to Guard Jail Holding Blacks Are Not Needed

(By The Associated Press)
CONCORD, N. C., June 28.—A Company of the North Carolina National guard called out by Governor O. Max Gardner to prevent possible violence to seven negroes held in jail here in connection with a criminal attack on a 15-year-old white girl found a mob dispersed as it took up its post today.

Governor Gardner ordered Company E of the 120th Infantry to guard the Cabarrus county courthouse.

The troops were the first put on duty in the state since strike disturbances last summer. North Carolina has not had a lynching in several years.

The attack was made on Ruth Criswell at her home in the Roberta Hill community, eight miles from here, Friday. The girl was badly injured and required surgical attention.

Eleven negroes were arrested by posses that scoured the county with bloodhounds yesterday and last night. Three were released and one was taken to jail at Charlotte. Deputies said today they did not believe they had "the right negro."

The crowd last night confined itself to shouting and breaking windows in the jail with stones.

Oil Men's Jubilee at Big Spring Is Set for July 3-5

BIG SPRING, June 28.—An oil men's jubilee, with a program which will cost local business men \$10,000 is to be held here Thursday, Friday and Saturday.

The city already is gaily decorated

CAPS PIONEER SUCCUMBS TO HEART ATTACK

Rites for Mrs. Mary Lindsey 74, Set for 5 O'Clock This Afternoon

Funeral rites for Mrs. Mary Lindsey, 74, victim of a heart attack at her home at Caps, early last night, will be held at Caps this afternoon at 5 o'clock. The service will be conducted by the Rev. C. Burkett, pastor of the Southside Baptist church of Abilene, and the Rev. David Phillips, assistant pastor and the Rev. W. R. Durr, Caps Baptist pastor. Interment will be made in the Caps cemetery beside the grave of Mrs. Lindsey's husband, J. R. Lindsey, who died in 1911.

Mrs. Lindsey, a resident of the Caps community for 25 years, died at 7 o'clock last night, after having become ill at noon.

A native of Alabama, Mrs. Lindsey moved to Texas in 1888. With her husband she settled at Caps 25 years ago, moving to that community from Williamson county.

Surviving Mrs. Lindsey are two sons, W. B. Lindsey of Caps and C. R. Lindsey of Abilene, and two daughters, Mrs. Leo Prophet and Mrs. H. F. Poe of Cape. A sister, Marion Ferguson of Williamson county, also survive.

The Laughter Undertaking company has charge of the funeral arrangements.

and reports from scouts, operators and others who have visited every Mid-continent field indicate that the crowd will be record breaking. A patriotic pageant will be presented two nights. Other program features will be coronation of the jubilee queen, attended by duchesses from 17 cities, a series of fireworks displays climaxing in a special July 4 spectacle, the first turtle derby in West Texas, a sham battle, band concerts and dances.

Buying for Contentment

IT IS not uncommon to buy something that momentarily attracts your attention and to scold yourself afterwards for buying it. . . .

Advertising helps you to use your family budget carefully—wisely—and saves you from after-regrets.

Day by day, in the advertisements of this paper, you see the worth-while enduring products spread before you—

Knowing them before you buy—you are able to judge intelligently your needs. Never are you rushed into buying; into having first—and scolding afterwards—

Advertising gives you honest information before you buy. You have a reliable guide and index to help you plan your purchases wisely and carefully—taking full advantage of day-to-day opportunities and sales!

Read the advertisements every day! You will find that they make your money go farther—and that you will be satisfied with your purchases long after you have bought!
